

## Embedded System Specialist

Established in 1983, Applied AI Systems, Inc. (AAI) conducts non-military cutting-edge R&D in intelligent robotics and intelligent image processing. Part-time position open.

**Technical Requirements:** University degree (preferably MSc or M Eng) and minimum 3 years intensive programming experience in embedded systems. Strongly desirable to have experience in sensor signal processing, realtime/multi-tasking O/S, LINUX, network interface software, and some image processing. Hardware experience is a strong asset.

Send resume by e-mail. No enquiries accepted.
